Advanced 9-stage Filtration System

CARBON PLUS FILTER
4-STAGE
FILTRATION PROCESS

1. **SEDIMENT**
   Removes dust, rust, sand, and other visible particles
2. **PRE CARBON**
   Reduces chlorine, odour, and organic impurities
3. **HEAVY METAL REMOVAL**
   Reduces heavy metals such as lead, mercury, and cadmium
4. **pH MAINTENANCE**
   Stabilises pH level for balanced and healthy water

NANO PLUS FILTER
5-STAGE
FILTRATION PROCESS

5. **SEDIMENT**
   Removes floating substances
6. **NANO FIBRE**
   Captures microscopic particles
7. **POSITIVE CHARGED MEMBRANE**
   Effectively removes bacteria, viruses, and microplastics
8. **POST CARBON**
   Enhances taste and removes any residual odour
9. **MINERALS**
   Adds essential minerals back for better taste and health
